

# SMSChat

Combining chatting with mobile technology results in flexible and widely accessible entertainment and communication applications. SMSChat makes it possible to chat from virtually any place, simply over mobile phone. Countless application possibilities and direct billing of users make SMSChat our flag product, which brings significant revenue for our business Partners.

## How to use SMSChat?

There are plenty of possibilities! Depending on needs SMSChat application may serve business or entertainment. Together with Mobiteam our Partner can put up a service where users communicate with each other or get in contact with moderator or animator. Modern mobile technology allows transmitting not only text messages but also graphic and video content, thus opening new opportunities to this communication tool. By manipulating the price of Premium Rate SMS it's easy to charge the user for any type of content.

## SMSChat applications:

- entertaining social contacts over mobile phone
- theme chats on any topic
- erotic services – animated theme and profile chats
- info services - an expert or consultant as chat moderator
- interactive communication channel as a follow up to radio and TV programs (SMS-to-screen solution also available)
- ...and many, many more!

## Available SMSChat options:

- one-to-one (e.g. dating)
- one-to-many (e.g. theme chat, profile chat)
- many-to-many (e.g. SMS-to-screen chat-room)

As a full service provider Mobiteam offers additional services accompanying SMSChat application:

- professional multilingual 24/7 animation services - we are flexible to adopt every topic to SMSChat application; we can work with such topics as contacts, films, technology, horoscopes, news, business info and many more!
- extensive content library (chat profiles, graphic and video content)

## Why SMSChat?

- ... because it's a simple, efficient and flexible solution configured at our Partner's convenience
- ... because it is offered as a fully-packaged service by a company well experienced in mobile markets
- ... because it generates significant revenue while keeping the costs down
- ... because it gives access to additional marketing information about mobile users

## Mobiteam provides:

- innovative, complex and easy-to-implement solution to fulfill all Partner's expectations
- mobile platform, connectivity to mobile carriers and service administration
- monitoring tools, including statistics and reports on SMS traffic
- guaranteed revenue without extensive costs
- experienced staff offering 24/7 technical support and consultancy
